

The FCC should not implement any proposal that would supercede Indiana's Telephone Privacy law protections. This year has been wonderful to actually be able to eat dinner without 10 interruptions. We used to get up to a dozen calls a day. After a long day at work, the last thing we want in the evenings is the telephone ringing constantly with tele-marketing phone calls. PLEASE LISTEN TO THE PEOPLE OF INDIANA AND HOW EFFECTIVE THEIR LAW HAS BEEN. IT WORKS....I KNOW..THE PEACEFUL EVENINGS AND WEEKENDS ARE GREAT..Thank you for allowing me to comment.
